ACTIVITY REPORT

Prafulla Chandra College together with the Internal Quality Assurance Cell (IQAC) of the College organised a one-day *Awareness Programme Constitutional Values and Fundamental Rights* on 28th August, 2023 in the College premises. Prof. Maidul Islam and Prof Suman Bandyopadhyay from Prabhu Jagat Bandhu College, Andul, Howrah. They highlighted to the students of the College that the Indian Constitution by far is the lengthiest and most comprehensive of all written constitutions of the world. In India like most other democracies basic rights, also known as fundamental rights have found undeniably one of the most important places in the Constitution of India.

Further they also highlighted the importance and relevance of Fundamental rights. Fundamental rights are the basic civil, political and human rights granted by the Constitution of India to all Indian citizens. Fundamental rights are the core principles issued by the Government of India to ensure a free and fair living by every citizen in the country. Fundamental rights not only safeguard freedom but also guarantee the right to live a dignified life and personal liberty of the citizens against any incursion by the state. In India the constitutional values give the State the power to create the conditions to build a just society to fulfill the aspirations of the people. In wider sense, the Constitution of India reflects a nation's basic values and aspirations.
